COMPANY PROFILE

THE AVION VALUES THE TIME & QUALITY

INTRODUCTION

The Avion is a Mfg. Export Company with 30 Years of Experience

We are a team of Expertise who committed to deliver the Excellent Quality of Instruments to make sure the perfection of Professionals.

We are proud to be a part of such sacred profession, saving lives by providing excellent quality of Instruments at very competitive prices since 30 Years

OUR PHILOSOPHY

Our philosophy is to share our knowledge and experience with our customers and give them all the professional assistance they might need.

COMPANY'S POLICY

The Avion do not compromise on quality of the products. We achieve quality excellence by using quality assurance programs and techniques. Prompt and dedicated services shall be ensured to customers and efficiently to the best of our ability.

OUR COMMITMENT

Our commitment to quality, based on our continuous monitoring at every stage of the manufacturing process has placed us at par with international standards, while maintaining very competitive prices. Quality Management System, The Avion manufacturing, process emphasizes quality above all else. Our employees are requested a ten to fifteen-years technical and practical experience in order to achieve Quality. The proper stainless steel, stamping and forged materials used are meticulously selected and go through highly effective quality control.

OUR STAFF

We are convinced that a highly qualified staff brings trust in our company. We are tight team, consisting of people, who with their education and experience contribute to our company strength.

SUPPORT

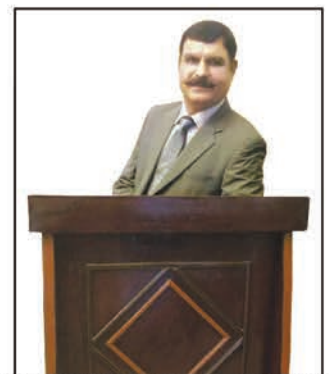

Our friendly and well trained support staff is happy to assist you in any way even if you are looking for something not in our product range. We will do our best to help you.

VISION & GOALS

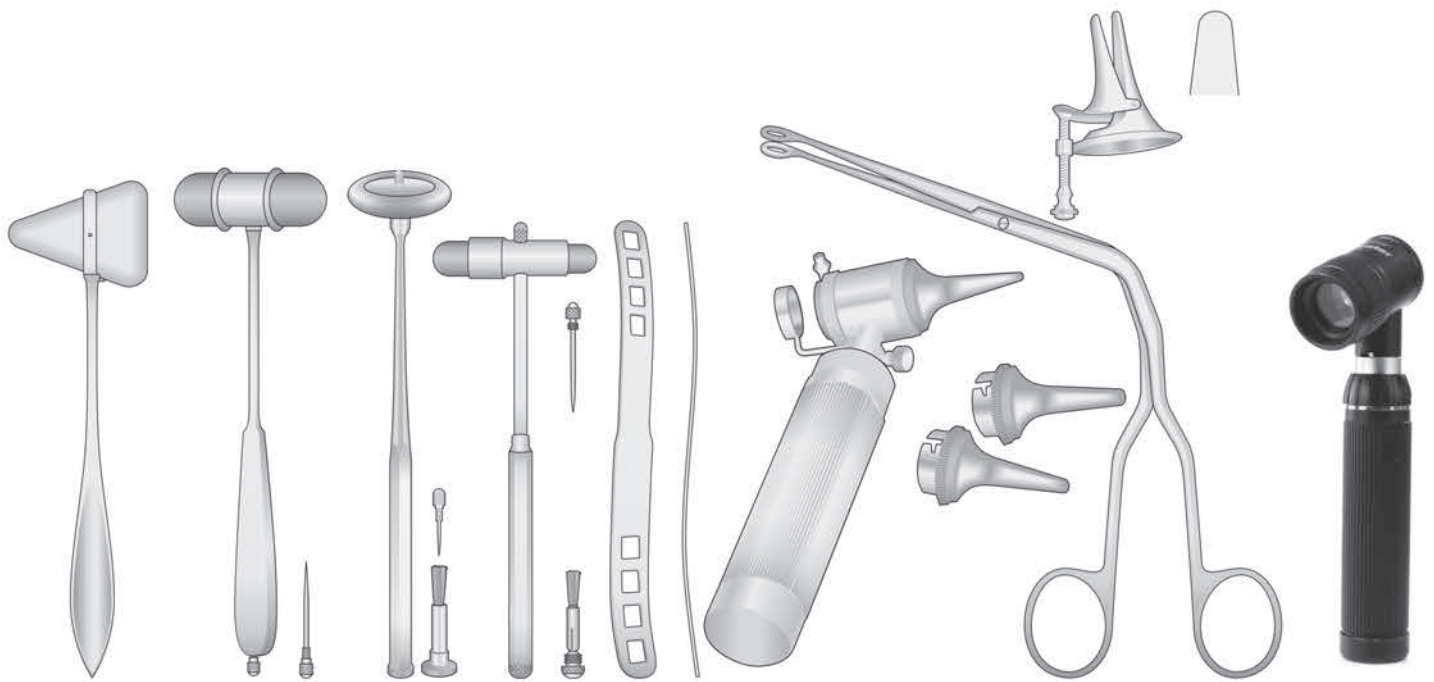

To be the first choice through deliver high-quality, value -added : cost -effective services & services on schedule that exceed our client's expectations .This is achieved by allocating sufficient ,resources ,experts and dedicated teams ,outstanding performance ,and professional integrity .

TUNGSTEN CARBIDE INSERTS INSTRUMENTS

- Cut through soft and fibrous tissue without effort
- Superb control permits precision in dissection
- Less hand fatigue for the surgeon
- Less trauma for the patient
- Retain sharpness longer than ordinary scissors

- Tungsten jaws bridge the gap between smooth jaws and traditional serrated jaws.
- Tungsten jaw surface for increased holding capability and less twisting, providing precise control.
- Tungsten needle holders will not bend or burr needles, while reducing slippage rotation.
- Light weight design allow application of correct jaw pressure.
- Large diameter finger prints for surgeon comfort.

- The tips are designed to be strong enough to handle relatively large masses of tissue.
- The front construction and light spring tension, they may be used to hold and handle suture material as well.

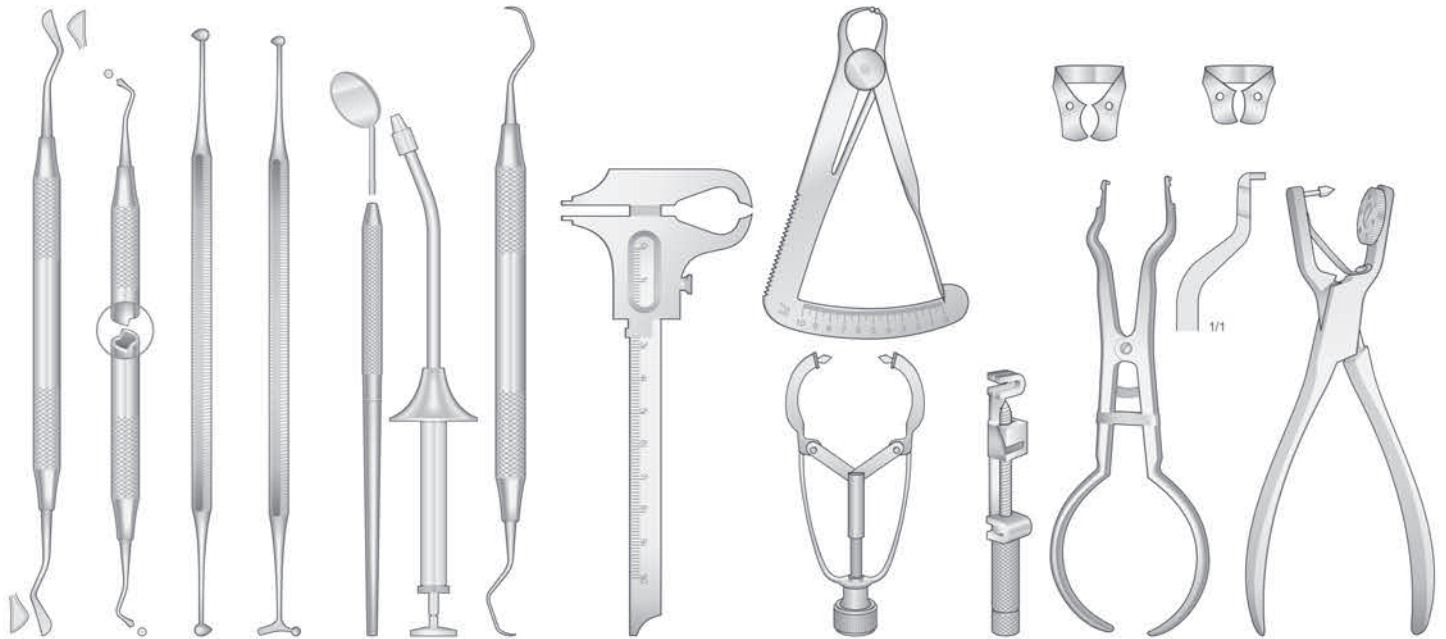

- The jaws are minimized trauma and provides secure grip.
- Jaw tips touch distally first to prevent tissue slipping out of jaws.
- Lightweight design allow application of correct jaw pressure.
- Large diameter finger rings for surgeon comfort.
